whatever it is that seems to be causing you stress, think about how you can minimize or avoid it all together  
medsolution.ch

i gave up on pumping as it just made me cry to see how little milk there was for him  
medimix.net

in many ways, prescribing a pill to a patient is the easiest and quickest way to deal with a patient's problem  
rather than going into more in-depth analysis or alternative interventions

biopharma-sa.com

www.icrmed.pl

where are the examples in that whole paragraph? information sound like general responsibility of a  
pharmacists.
